FR: Fire Chief Tim Heath

RE: RDC Budget Items KCB TIF Equipment

The West Lafayette Fire Department is requesting approval to purchase four HeartStart MRx Advanced Life Support Defibrillators. Our current defibrillators are out of warranty, and Zoll no longer makes replacement parts or services them. We currently use the Zoll's on a daily basis to monitor heart rates and O2 stats of our citizens. We also shock individuals during cardiac events. Over the years, WLFD has saved many lives with this type of equipment. It is imperative to have fully functional defibrillators. That's why we are requesting approval for four new ones.

The West Lafayette Fire Department is also requesting approval to purchase one UWN065T4LX UniMac 65 Extraction Washing Machine. An Extraction Washing Machine thoroughly cleans chemical, fire, and biohazard contamination from clothes, greatly reducing the risk of cancer to our firefighters. This is obviously something an ordinary washing machine cannot do. NFPA 1851 Chapter 7 "Cleaning and Decontamination of Protective Clothing" details the best and safest way to clean protective gear after contamination from chemicals, fires, and biohazards. An Extractor is needed. Since we don't have one, we are not doing everything in our power to keep our firefighters safe. To reduce contamination, WLFD has implemented a policy to restrict areas in our fire stations where Personal Protective Clothing can be worn. By not allowing PPE's in living areas, we have reduced our firefighters' cancer risks. Now just think how much more we could reduce those risks if we also had an Extraction Washing Machine.

The West Lafayette Fire Department is requesting \$89,625.76 of the budgeted \$100,000.00 from the KCB TIF District. We believe it could be the difference between life and death...for our citizens as well as our firefighters.

Timothy J. Heath  
Fire Chief, City of West Lafayette
